Meet The Owners

Sally

Born and raised in Ng'ethu, a small village in Kenya, Sally discovered the value of community service at just 10 years old. It was during this time that her love for caring for the elderly began. She often visited seniors in her community, assisting with chores such as fetching water, gathering firewood, and doing laundry, treasuring the stories they shared in return.

After moving to the United States, Sally pursued Nursing, a profession she has devoted herself to for more than 20 years. She is passionate about helping individuals maintain independence and dignity in the comfort of their own homes. For Sally, every act of care is also a way of honoring her grandmother back home in Kenya.

Faith

Growing up, Faith had a passion for wildlife, which is where her career initially led her. At one time, she was taking care of non-human primates (monkeys and bushbabies). This included a medical clinic that cared for injured and sick animals, which then piqued her interest in human medical care. She changed her career to nursing where, following in her mother's footsteps, she happily cares of humans now. She loves taking care of the elderly in the belief that they worked hard to get society where it is, and now it's time to give back and take care of them.

The pair started Immaculate Homecare with the goal of providing the highest quality of support and care that seniors need in order to remain safely in the comfort of their homes.

IMMACULATE HOMECARE CORE VALUES

These values are our guiding principles

Caring and compassionate

Respect everyone and enhance their well-being.

Do the right thing

Take charge. Go the extra mile with a smile.

Be consistent yet adaptable

Reliable, adjust where needed, always update knowledge.

Communicate and collaborate

Build trust between client(s) and the team.

Value reputation

We are a brand with compassion. We want to keep shining.

DID YOU KNOW?

Everyone knows dehydration is dangerous... but did you know that constipation medication won't work if one is dehydrated? Indeed! Colace (Docusate sodium), the most common constipation medication works by enhancing the incorporation of water and fat into stool, causing stool to soften and therefore be excreted easily.

So, make a toast with water and take several glasses a day 😊

CLIENT TESTIMONIALS

Ellie H.

“ This agency is so well organized and efficient with high quality care. I had an emergency visit at The Lahey Hospital and the case manager, Wenge, recommended I contact Immaculate as I needed home care. I contacted them and within a few hours Melissa, the administrator, made the arrangements and Ellen appeared at my door within a few hours of my call. The next day Hilda arrived and both were warm, qualified, and so helpful. Pauline, the agency case manager came to make the plan and oversee the visits. I can't thank the team enough for going above and beyond my expectations. If I need further help I know where to go!!

Beth C.

Immaculate Care providers have been wonderful. They helped my brother go out for walks when he was in assisted living and then when he had to go to a skilled care facility. For the last three months they cared for my brother by providing companion care. The caregivers helped my brother have a greater quality of life.
